

School of Spiritual Healing and Prophecy

2024-2026 • 36th Year School Session

Self-Discovery Is the Key

If you believe the next step in your spiritual development could include a firm commitment to profound spiritual discovery and to the joy of living your spiritual truths in an everyday, practical way, then this School is for you. In this concentrated two-year Certification Program, we bring together a world-class faculty of instructors representing many different spiritual disciplines. They will teach you all the skills you'll need to demonstrate the capabilities you see listed on the left.

Our teaching approach is rooted in deep meditation and spiritual healing approaches. These will move you through and beyond your mediumship, and your intuitive abilities and into the realm of actual prophecy. The unique Live Learning™ process we developed to teach our continually evolving Spiritual Insight Training™ programs keeps us on the leading edge of body-mind-spirit integration. It will enable you to absorb large amounts of material in short periods of time, while simultaneously capturing and distilling the core of what our faculty have to teach you.

Our weekend and week-long retreats provide a distraction-free environment. You will awaken your awareness, and experience new spiritual capabilities in a way that stimulates growth on all levels of life simultaneously. This frequently produces reactions of both joy and wonder from our students – and also from their teachers!

By sharing your discoveries with others, you will accelerate the pace of your inner awakening. Through this process of discovery, you will be brought into a new awareness, a deeper understanding of both yourself and other people. You will also learn to use these techniques in practical applications everyday from this point forward in your life.

OBJECTIVES OF THIS TWO-YEAR CERTIFICATION PROGRAM

Our aim is that every graduate of this program be able to confidently and competently demonstrate the following abilities:

- Reach deep levels of inner peace through meditation.
- Use multiple approaches to directly conduct effective spiritual healing.
- Demonstrate accurate prophetic and spirit communication messages by means of clairvoyance, clairaudience and clairsentience, and thereby assist others in both spiritual and mundane matters.
- Experience spiritual direction by harmoniously aligning inner states of mind and outer activities.
- Create ceremonies and sacred space for healing and worship.
- Organize and conduct development circles and workshops in meditation and healing.
- Use Live Learning™ concepts, as desired, in all aspects of your lives.

Our students come from diverse religious and spiritual walks and we believe each person's spiritual calling is unique and personal. Graduates of our program apply these learnings in all aspects of their lives.

We offer two options for students who successfully complete their training and graduate from the School of Spiritual Healing and Prophecy: A Metaphysician Certificate of Completion or Ministerial Ordination.

Training Schedule

First Year Program

The first-year program consists of both in-person and live online training. Instruction will include group and personalized individual instruction provided by our Directors, Instructors and Mentor staff. This program begins in Oct. and ends in May of the following calendar year. Between these classes, students are expected to put into practice and integrate what they have learned. This includes a regular meditation practice, as well as documented

readings and healings. During the two years, each student is assisted by a Fellowships-trained mentor, as well as the directors and faculty. The training format provides both small and large group instruction, as well as individual attention to each student's unique needs and abilities.

At the end of year one, students will be able to demonstrate sufficient competence in spiritual healing and prophecy.

Ministry Option

Students who wish to apply for Ordination must do so in writing during the first year of training. They will be interviewed as part of their evaluation and acceptance process. Successful candidates will be ordained as Associate Ministers at the end of the first year, which is good for one year. A full ordination ceremony is conducted at the end of the second year.

Who can apply to the School and its training program?

Anyone who has completed Spiritual Insight Training™ Parts I and II may apply. As a part of the application process, we will ask you to prayerfully consider your reasons for entering this training. A completed application form and an interview will be required.

Second Year Program

In the second year, the focus is on assisting students to recognize and apply the uniqueness of their individual spiritual gifts. We will build on their strengths, address their challenges, and deepen their knowledge and abilities, helping them reach new levels of spiritual development. To this end, each student works on an individually designed, faculty-approved community-based project intended to enhance the student's personal development. Additionally, students continue their reading and healing assignments. They will attend both in-person and online intensive classroom instruction: training in healing, intuitive development, mediumship, public speaking and presentation, pastoral care and the conducting of worship services.

This program requires a sincere determination on the part of all students to earnestly develop their spiritual capabilities, and an equally serious commitment to living a life of loving service to other people. Those who have chosen the Ministry option will receive a full Ministerial Ordination.

Ministerial Ordination Option

Full Ministerial Ordination is intended primarily for those students who believe they are called to establish a formal ministry of healing and prophecy.

CERTIFICATION TRAINING DATES*

2024

- Friday - Wednesday, October 18 - 23 (In person)
- Friday - Sunday, November 15 - 17 (In person)
